Subject: RIN 1210-AB33

To whom it may concern,

My husband and I are completely opposed to any attempt by the government -- whose reckless inability to manage a budget is notorious--to manage my 491(K) or any other of my accounts or retirement plans. I and the rest of my fellow citizens are fully capable of doing the job.

If this trend continues, whatever you call it, I will have to find a way to go to another, more free country.
